MaDoW

EASILY RETROFITTED CONDITION MONITORING FOR YOUR DIGITAL FACTORY

MONITORING OF MACHINE DOWNTIME

Monitor your entire production area with our app MaDoW. Using simple signals, the exact downtimes and productive times of all machines and systems are recorded to the minute.

YOUR OVERVIEW
OF ALL PRODUCTION PROCESSES

You can map your entire **production process** in MaDoW.

How? By **defining all lines** (machines or productions lines) **and stations** (process steps of a line to be monitored) of the **production landscape** yourself.

**Feedback on individually defined downtime reasons possible**

Exemplary display of a milling machine with downtimes and productive times including piece counting
